Determined to Subject Himself to Withering Cross-Examination and Attack Murphy. Prosecution Has Several Big Shells Yet to Fire Into His Camp.

[Special to The Times-Dispatch.] Albany, N. Y., October 1 .- At midnight to-night Governor Sulzer made up his mind to go on the witness stand at impeachment trial and make a full and complete statement. To use his own words, he "will go down the middle of the road and spare nobody, not even himself."

This decision was reached after his awyers in eleventh hour conference had warned him that the prosecution intends to subject him to a withering cross-exampation, and his testimony cross-examination, and his testimony will open the gates for the introduction of a mass of new testimony against him. The Governor was told that among the unexploded shells in the prosecution's lockers is evidence that one man in high finance contributed \$10,000 to his campaign, and that he will be asked about additional that he will be asked about additional corporation gifts totaling \$25,000.

Up to the time the Governor made this announcement his lawyers had absolutely no guess as to what the plan of their campaign was to be.

The prosecution closed this afternoon. The defense, after a desperate fight for a delay, was given till 2 o'clock to-morrow to open. This means that the Governor will go on the stand and tell his story early next week.
